

SCIENCE OLYMPIAD

Blanchet's Science Olympiad Team successfully compete at the Oregon State Science Olympiad Tournament held annually at area high schools. Students must attend a few mandatory lunch meetings and a mandatory preparation meeting following school. They must display interest, desire, and commit to be prepared for their events.

TRY SOMETHING NEW!

SPIRIT CLUB

A club for any student, staff or faculty member who is interested in school spirit! The purpose of the club is to develop a sense of belonging among students and staff and to support our teams, clubs and each other with our Cavalier spirit!

Advisor: Mrs. Corina Moore

WHY GET INVOLVED?

Getting involved in a school club helps you make new friends, build useful skills, and explore new interests.

Make New Friends

- Meet peers who share your exact hobbies and passions.
- Build a supportive community outside of regular classes.
- Feel a stronger sense of belonging at school.

Build New Skills

- Practice teamwork by working on group projects and events.
- Grow your confidence by speaking up and sharing ideas.
- Learn leadership skills if you help run the club.

Explore Interests

- Try out fun new activities that are not taught in standard classes.
- Find out what you love to do and what you might want to do as a job.
- Take a healthy break from normal homework and studying stress.

Have Fun and Relieve Stress

- Enjoy a fun break during your busy school week.
- Spend time doing an activity you actually look forward to.
- Stay busy and keep boredom away.

MID HIGH CLUBS

AMERICAN BATTLE OF THE BOOKS

The American Battle of the Books club brings students together to read, deepen their understanding of literature, and demonstrate their knowledge through friendly academic competition. The club encourages and recognizes students who enjoy reading while broadening their literary interests, strengthening reading comprehension, promoting academic excellence, and fostering teamwork, collaboration, and cooperative learning.

Advisor: Mr. Bennett Brown

ART CLUB

Students will collaborate with other school departments to beautify the school.

Advisor: Mrs. Corinne Altotsky

BIBLE STUDY CLUB

Bible Study Club meets every Friday at lunch to discuss the Sunday Mass readings. This club is open to mid high students and Blanchet faculty and staff. The purpose of the club is to grow in faith and love of Jesus Christ through Sacred Scripture.

Advisor: Mrs. Lori Martino

BOARD GAME CLUB

The Board Game Club is a place for students to enjoy a variety of board games, build friendships, and have fun with classmates who share a common interest. Whether you enjoy strategy games, classic favorites, or learning something new, there's a game for everyone. All Blanchet mid-high students, from beginners to experienced players, are welcome!

Advisor: Mr. Bennett Brown

CAMPUS AMBASSADORS

Campus Ambassadors are mid high or high school student volunteers who serve as tour guides and hosts/hostesses for student visitations and special events. Students welcome visitors at special events, and show potential students around campus.

Advisor: Mrs. Jaclyn Becker

STAY CONNECTED

ESPORTS

Esports Club is an organized and competitive arena for students to play video games and develop skills. Students will develop teamwork skills through competitions and organizational skills. Students aged +13 can sign up to compete on our team in league events. Additionally, students in 6th-12th grade can participate in our gaming after-school activity once a month.

Advisor:

GARDENING CLUB

Students will work together to plant, maintain, and care for our school garden while learning about flowers, vegetables, herbs, and sustainable gardening practices. Along the way, members will develop teamwork, responsibility, and an appreciation for God's creation. Whether you're an experienced gardener or have never planted a seed before, everyone is welcome!

Advisor: Mrs. Jaclyn Becker

ROBOTICS

Students design and build their robots from the ground up and must program the robots for the autonomous part of the competition as well as user controlled portion. Students learn the fundamentals of engineering design and computer programming. Students work in groups based on age and experience.
